OBJECTIVE

To obtain a technical position where I can apply my skills in IT support, system administration, database management, software and hardware troubleshooting, and technical problem-solving. I aim to contribute to efficient and reliable technology operations while continuously developing my technical knowledge and gaining experience with new systems, tools, and technologies.

GENERAL SKILL

- Excellent communication skills
- Strong work ethic and integrity
- High level of accountability
- Analytical and logical thinking
- Adaptable and fast learner
- Strong time management
- Team player and collaborator
